

FIRST SHOWING OF New Fall Clothes for Men

To the men who like to be well dressed at a moderate cost this store's Fall Showing of Suits and Overcoats will be interesting indeed.

It's extensive, generous, and is made up of only the new set of styles, and fabrics in the latest shades and colorings.

And best of all the highest quality predominates throughout, not only in fashioning and fabric, but in the making—every garment is built as perfectly and as thoroughly as any your tailor can turn out to your measure.

At the different prices there are ample selections—not many of a kind, but many kinds, which insure the same exclusiveness as you'd pay a tailor long prices for.

Here's but a hint of what you may expect to find.

SUITS

A complete assortment of new patterns, in Cheviots, Bannockburn Mixtures, Fancy Stripes and Plaids in Worsters and Cambrics and black and blue unadorned Cheviots. Coats are newer than this year last, more shapely and very attractive in appearance.

Priced begin with an excellent line at \$35.00 and run up to \$15. Every size is here. The \$10 line should have your particular attention, it's all price.

Fall Weight Overcoats

As we have stated, the short top coats are the favorite with most men, while the medium length coats are more sought after by the more conservative dressers.

We've excellent lines of Showerpcoats of Covert Cloths, made in the popular Glenlivet style.

Medium length overcoats of Black or Oxford unfurnished wools, full silk facings, \$83.00 and over.

But you must see these Clothes—can't know how much more quality they contain nor how much finer they are priced than other values you do.

We have a most complete showing of everything that is New in Winter Overcoats.

This is the store where High Quality is not High Price.

It is the only quality that with questions of duty—the duty of men and women toward each other and their Creator.

DAILY INTELLIGENCE.

ELECTION FRAUDS.
\$500 FINE AND 12 MONTHS IMPRISONMENT.

Judge Oulston of the King's Bench, Montreal, has shown a proper discretion of the crime of fraud and the registration of improper and false votes by entering the offender to 12 months' imprisonment and a fine of \$500, in default of the payment of which, an additional term of six months' imprisonment.

Our readers will remember the friends by which the election of 1898 was secured for the St. James' Division of Montreal. They will also remember the trial and conviction of a nephew and namesake of the man who secured the victory in that election in Parliament, and his release by the Minister of Justice from jail after a short imprisonment. Now one of the willow donors has received a sentence which should send terror into the ranks of those whose business has been to run ballot boxes and by such means keep election in power.

Judge Oulston's address to the prisoner in announcing the sentence was short, but to the point. He said: "The crime of election fraud is a serious crime, and the public interest demands that fitting punishment should be meted out. The reports of the case show that you have been guilty of forgery, and that you did register false returns in your capacity of deputy returning officer. I can give sentence you, Rudolph Elie, to twelve months in the common prison, for the crime of forgery, and to a fine of \$500 or six additional months' imprisonment for the crime of fraud."

The Minister of Justice having pursued the greater criminal in these frauds, "how can," asks a contemporary, "the Minister of Justice, who is so recommended to the public, and who has already made and secured a pardon for the greater criminal who organized the St. James' Division fraud, and who has been only a subterfuge?"

Just so long as the times in which

at and pardon some criminals as Elie, just as long will election frauds continue to be rampant and with an executive assistance is the only hope for honest and pure elections.

In the face of the crime committed to secure Bruneau's seat in Parliament, the people were to be the victims of this man Elie, if he were not taken to task after his crime. He is to be taken to task in being able to sign M.P. after his crime, while some are laughing at him with heavy fine and long term in his jail.

There were election agents and deputy returning officers at the late election not far from here, who, if prosecuted, would be abusing the same cell with Elie. They deserve such a fate and should have it.

FOR THE BOY

Then again for the larger boys up to 16 years of age, coat, pants and vest suits, we have splendid value at \$2.90, \$3.50, \$3.50, and \$4.00.

Buying a Range

The King of Ranges—"Buck's Happy Thought"

There are three essential things to consider when buying a Range—Quality, Construction, and Price. The price is the least important. A good Range will last many years, and when it does, it will be worth every penny of its cost. The Range is the lightest heat consumer in the world, and the most perfect Range constructed. It is a perfect cooking appliance.

HAS THE POWER

TO SEIZE MINES

SENATOR CHANDLER SAYS GOVERNMENT CAN INTERFERE IN A CASE OF PUBLIC Necessity.

Washington, Oct. 5.—Former Senator Chandler, of New Hampshire, who is now President of the National Twenty Claims Commission, expressed his opinion today that the government has the power to seize and operate the mines for a year, or until the situation is relieved, in order to acquire title.

Mr. Chandler believes that to do this the government would not have to acquire title. Although the mines are private property, he points out, they are a public necessity, and that the Federal Government has authority to take such action in order to relieve a public necessity. He believes that the government should be authorized to seize and operate the mines for a year, or until the situation is relieved, in order to acquire title.

TIMELY TOPICS.

This should be a good winter for farming. The young folks will have to be content to keep their active work.

The probability that this will be an open season is proven by the fact that majority candidates are "lying low."

The question of who will be our next Mayor does not seem to be exciting people very much. Certainly it is not creating interest with the active circles. The case of a certain gentleman was mentioned some time ago, who would probably have been a good run for the office. Unfortunately for him somehow or other he failed to get the good will of the Grit and from that moment day, after he lives it down, he may enter a contest, but at present, not for your Uncle Budler.

A public man in Belleville can wax fat on the reality of the Grit, but even if he gives him a might so, well hang his sheep on a willow tree.

It should not be forgotten that the Council has taken the initial step towards organizing an Association. Of that committee next year's Mayor will be a member. There is no doubt an additional reason for people to use every effort to finish the very last available in the Mayor's office. Our readers should thank this over.

It will not be difficult to get a good season's work in this winter. It is full of them—let for the year of our Lord and the City. Every foot man it can get. It is sure to early to look around and begin to "age up" the situation.

It is stated on good authority that the work of our worthy residents have purchased the property formerly owned and occupied by the late Dr. Brown, on Bridge St., with the object of turning it into a new school building. The property is an ideal one for such a purpose, and the situation of the land would be a decided acquisition to Belleville, while the play on the bridge, already within her gates. These would appear, however, to be the first of an institution of the kind mentioned, and certainly everybody will wish it to succeed.

The Montreal Witness, in a fine letter, asks Mr. Tarte if he knows "that such men as Mr. Fisher and Mr. Sifton will authorize to the use of the word 'Canadian' and if, so, what sort of petition would be presented to the House of Commons?" The dear correspondent Wilson knows very well that the gentleman mentioned, like himself, will submit to Tarte whenever he comes the whip. He is the master of them all.

Under the title "Mr. Balfour and His Opponents," the Gilbert Poirer, M.P., contributes to the October number of the North American Review an interesting study of the new British Empire Minister and the person who is to be his lieutenant in the administration of the affairs of the British Empire. For the purpose of Mr. Balfour as a typical leader, who possesses the force of mind and character and temperance that the House of Commons values and admires. He belongs to the territorial class, but is a man of a high order of intellect, and he has written books which are an acute criticism of the day and sound knowledge of philosophy, literature and theology. Moreover, the man has a long training in Parliament; he is familiar with the details of the work of the House, and he has established a reputation for integrity and persistence which is the most valuable of all possessions to a British statesman.

OUR GOOD BELLOWS. General Sir Watkinson, who has been enthusiastic for some time and outcries did not mean intervention when the war was in progress. There were a number of reasons for it. He would take a good look at the British Empire, and he would be tried to do so, as he will probably be one of the principal reasons.

John Krait is dead. He was a religious soldier, and a man of great courage. He was a member of the House of Commons, and he was a member of the House of Commons. He was a member of the House of Commons, and he was a member of the House of Commons.

Birmingham, Eng., Oct. 10.—The much-discussed conference of the Liberal-Unionists, which was called by Colonial Secretary Chamberlain to formulate the attitude of the Birmingham Liberal-Unionists towards the Education bill, was held here last night.

Mr. Chamberlain presided at the meeting, and enunciated his views in a lengthy address. He said he had said all that was in favor of the Government, providing only secular education, but rightly or wrongly, the majority of the country required that religious instruction of some kind be

But what it wanted from a Unionist Government, it would not get it from the Radical Government which would follow the Government it might smash.

Mr. Chamberlain advised the Liberal-Unionists to do nothing to expose the intrigues of those who would hand over Ireland to the Home Rulers, who would transfer South Africa to the Germans to the discretion of the pro-boers, and would leave Imperialism in the hands of the "Fascist leaders," and domestic reforms in the hands of the Newcastle program.

The Colonial Secretary said he would promise that one thing was absolutely certain, namely, that the bill would be withdrawn. He said the Government could not withdraw it without a tremendous loss of prestige, and that the only logical step

would be the expenditure necessary to replace the existing denational schools.

In conclusion, Mr. Chamberlain announced that if the Government were inclined on this bill it would resign and leave his hearers to mark that the Government had renounced the consequences.

An official report issued to the press of a private conference which followed Colonial Secretary Chamberlain's speech says that 105 persons attended the meeting. The speeches indicated considerable divergence of opinion, but the general tone of the meeting was entirely loyal.

A prominent delegate, upon leaving the conference, said Mr. Chamberlain had completely annihilated the meeting, that several speakers had said they would rather swallow the bill

ment, and that, in short, by the threat the Government would resign in case the bill was defeated, Mr. Chamberlain appeared to have played a trump card, and to have stopped effectively any incipient revolt.

Existing Duty on Dynamite Is Left Unaltered.—Wine Duties Increased.

Pretoria, Oct. 10.—The Gazette says: The duties are abolished on agricultural machinery, but the

and agricultural implements. As it is imperative to replace a portion of the loan, the duties on wines and spirits are increased. The existing duty on dynamite is left unaltered. The duty of six cents each on poles, six cents a pound on sulphuric acid, six cents a pound on copper wire are cancelled. All iron will be admitted free, and the cost of building will be greatly reduced by the removal of the duties on cement and timber. The alteration of the duty on cigars and cigarettes from \$3.75 per hundred cigars without distinction of value.

from \$3.75 per thousand cigarettes to \$1 a pound is considered equitable. The special duties on jama and honey will be reduced to three cents per pound; the special duty of 2.50 on oats, \$1.25 on cut hay and the special duty on coal will be abolished. Anomalous duties will be amended. Many of the changes to be made have been agitated for years, especially with regard to matches, which were specially taxed \$1 per box for the benefit of the company.

Mr. Mark would not comment on the fact that Secretary Howe had been on his own conference with Mr. Morgan, but he said that the operators had taken their assurance from the coal strike last night, and that of men were ready to go to work.

The Testing of Eyes

Is not a matter of cure work, but is it a matter of trying on a pair of ready-made Glasses. It is a science pursued by principle which none but a person who has studied the anatomy of the eye can understand and no one can work in our methods of testing the eye.

OUR WORK IS GUARANTEED.

The Overcoats

Men will wear This Winter...

OPENING OF THE NEW STYLES

A display of the smart ones—those built of grey and dark Oxford dressed fabrics—cut a trifle shorter than those of last year, and fashioned with full back and broad sweep at the bottom. Besides those there are the medium box coats, the belted box coats and other styles, all of which have the new shoulder effect now so essential.

The showing is both vast and extensive, and it tells the story well of how this store ever keeps in touch with the advance fashions.

You should and undoubtedly will expect to find the newest and best here and we shall not disappoint you.

just the best. Then to the west, and so on, ad infinitum, until the world of all the churches has been made. Then the students settle down for the winter and on Sunday morning make the list of names in their rooms, while they watch other people going to church. Such is life."

A Toronto Advertiser has given notice that he will move that application be made to the Lordship of Ontario, at its next session, for an act empowering any municipal corporation to establish and maintain a municipal fire yard for the benefit of the people. It will be interesting to watch the course of that agitation. The bill will have a chance to be introduced, if it is not smothered in its infancy.

A Toronto runner says "Fire and Billy" Hooten was seen at all times. Nothing doing. Fire and water make a poor combination.

It will be noted, by the letter from Mr. Island in another column, that that gentleman desires he ever made one of the expenditures in connection with the proposed withdrawal of the \$200,000 voting machine, "I wish to feel you know."

Mr. Island says "It seems hardly reasonable for him to drop it out. A. D. Schaefer, in order to hear what he had to say in connection with the matter."

The Chairman of Industries, it appeared, and also received a letter from Mr. Island, which the newspaper did not see, but which was, he is to believe, couched in somewhat the same terms.

"Now, you anything to say in the matter?" he was asked.

"Nothing," was the reply, "only that Mr. Island made the remark I attributed to him and a good deal more."

A. D. Schaefer's idea seemed to be that the Trust and Guarantee people thought that, with the loans withdrawn, they might be a possibility of their eventually getting the City's consent to the removal of the rolling mill and from the City.

It does not appear to the lay mind that Mr. Island's alleged remark, if it was allowed to stand as a matter of history, would have any tremendously far-reaching consequences. The fact of the matter is that our people are not exactly hanging on the words of the Trust and Guarantee Company, and care about as much for their opinions as the T. & G. people care for us, which, by the way, seems to be proven true.

It will be noted that another option expires on the 23rd inst. Also, of these options, we fear, are still rare, though in our opinion they may be so long it is a question if this city has been looking for, however, Mr. Island's letter is cheerfully published, even though it is subject matter may not raise the Intelligence's circulation by more than a thousand copies, nor see the 23rd inst.

As to the proposition to remove the plant from this city, the way for which appears to be in process of progress, we mistake the sentiment of a majority of our citizens if there is not a strong feeling against the City Council committing itself to anything of the sort, unless a good price can be given. Twenty-five thousand dollars of the City's money would be asked to be paid for the removal from this city, and the City would be left with the burden of the plant, which is a very serious matter. If the mills are to remain here, then the Council is in duty bound to consider the best way of getting rid of the plant, but in this matter of interest and taxes. And we don't think any City Council elected by our citizens will follow any other course than the one we have outlined.

That Being Factory," said a prominent citizen at this morning, "will be a great thing for Hamilton. You see, the Intelligence struck it right when it said that electric power was the great desideratum. You know, it is so on condition, 'I am aware of the fact that the City of Hamilton is a mistake in regarding as much money for factories. Just think what the City would be if we didn't have that old delinquent indebtedness. Then the tax rate would be something like 10 or 12 mills on the \$1. However, let's wait and see what the American Iron works will do. I have not been in Belleville by any means, but I am sure that it is something worth to improve the water power of the city. It is a mistake to think that we have and without any tremendous outlay, either. Last Belleville will make a change to get in the industrial revolution. At present we seem at a standstill."

"I Coughed" Sixty years of cures have taught us what Ayer's Cherry Pectoral will do. We know it's the greatest cough remedy ever made. And you will say so after you try it. It's the cure in every case. *See page 2, 12, 22, 32, 42, 52, 62, 72, 82, 92, 102, 112, 122, 132, 142, 152, 162, 172, 182, 192, 202, 212, 222, 232, 242, 252, 262, 272, 282, 292, 302, 312, 322, 332, The Overcoats

Men will wear This Winter...

OPENING OF THE NEW STYLES

A display of the smart ones—those built of gray and dark oxford undressed fabrics—cut a trifle shorter than those of last year, and fashioned with full back and broad sweep at the bottom. Besides these there are the medium box coats, the belted back coats and other styles, all of which have the new shoulder effect now so essential.

The showing in both vast and extensive and it tells the story well of how this store ever keeps in touch with the advance fashions.

You should and undoubtedly will expect to find the newest and best here and we shall not disappoint you.

COLD WEATHER

The cold weather is upon us now and the biting winds remind us that soon will come the snow and the cold. Overcoats must be on our minds. What need to say we have them in every standard weave? That we have them in every popular color? What we would impress you with is, that we can and will give you a tailor's fit in any known style, at about half the price you will be asked to pay a tailor for the same thing. Our name is proof of quality, style and fit. Every patron of ours is proud to say that he bought his overcoat from us.

OUR GUARANTEE

The value, quality and style of every article we sell is guaranteed. Bring your purchase back if it should prove unsatisfactory in any way, and we will be here to exchange or to refund your money.

TIMELY TOPICS.

This wild windstorm last night kept many people from going to church. Their religion is such a loose cloak on them that the heaviest night would have blown it away.

A Sunday afternoon for a home to most people. It lures them to take exercise which otherwise they wouldn't get.

Strange, too, that some people will severely approach a fire on Sunday afternoon when won't go to church on Sunday night and then have to avoid one.

Speaking of churches, which do you think is the most to be commended in a mainstay-like principle of preserving original persons which were stranger people by their brilliant, or of appropriating the ideas of others, the anonymous writers as one of the latest men in the world and said: "I don't have a dog over me at all." This question is suggested by the fact that the volume of sermons in which it is printed, I met it from Montreal only last week.

It will be understood, of course, that the above conversation was not heard by anybody. The plan of this beautiful city has originally sticking out all over them, like the fine points of a compass.

The only thing that kept Mr. Wilford Lester from offering him, Mr. Terrie's late job to Al. Pender, of this city, is because the latter is on the wrong side of the platform. There is no doubt at all that the situation of Public Works in Belleville this summer was all right.

The way the people of some of the provinces of life are so many, making many people very poor.
